Yova Coin White Paper

Introduction

Welcome to the world of Yova Coin - the newest meme coin sensation, born on the powerful Solana blockchain! Inspired by the proboscis monkey, one of nature's most unique creatures, Yova embraces the underdog and the overlooked, standing as a tribute to all the ugly and unloved creatures of this world. Yova coin is developing secure dApps for niche market segments that are overlooked and ignored.

Overview

Yova Coin (Yova) is more than just a meme. It's a movement! Starting as a fun, no-utility coin, Yova is set to become a force to be reckoned with. Our vision is to build a robust and secure ecosystem of Real World Asset (RWA) applications, with Yova at the core of daily transactions.

Key Features

- **Meme Coin Origin:** Initially launched with no utility, Yova Coin brings fun and excitement to the crypto community.
- **Real World Asset Applications:** Transitioning from a meme coin to a backbone for RWA applications.
- **Secure dApp for Freelancers:** Launching in Q4 of 2024, enabling seamless daily transactions using Yova.
- **Dedicated Development Team:** Created by a group of serial entrepreneurs and crypto enthusiasts.
- **Trustworthy and Transparent:** No presale, zero taxes, and LP burned.

Roadmap

Q4 2024: *Secure dApp for Freelancers*

In the fourth quarter of 2024, Yova will launch a secure decentralized application (dApp) designed specifically for freelancers. This platform will revolutionize how freelancers transact daily, utilizing \$YOVA for secure and efficient payments.

Q2 2025: *Yova Blockchain*

By the second quarter of 2025, Yova's blockchain testnet will go live. This testnet will pave the way for a secure and scalable future, enabling the development and testing of new applications within the Yova ecosystem.

Q2 2026: Education-Related Marketplace dApp

In the second quarter of 2026, Yova will launch an education-related marketplace dApp. This platform will further expand Yova's real-world applications, providing a secure and innovative environment for educational transactions.

Tokenomics

Total Coin Supply

Total Supply: 10 billion YOVA

Circulating Supply: 99.99% of the total supply is currently in circulation, ensuring a high level of liquidity and availability.

Purchase and Trading

Currently, YOVA can be purchased on Raydium and Jupiter. With no presale, zero taxes, and LP burned, Yova Coin is a trustworthy investment for the people.

Urgency and Opportunity

If you missed out on Bitcoin, Ethereum, and Solana when they were low, don't miss this opportunity! Buy it, trade it while it's at an all-time low. This is a lifetime opportunity; don't miss it. You will regret it if you don't act now.

The Team

Yova Coin is created by a dedicated group of serial entrepreneurs and crypto enthusiasts. Our team is committed to transforming the crypto landscape, honoring the underdog and the overlooked, while building a secure and dynamic future.

Conclusion

Join the Yova revolution today! Together, we'll transform the crypto landscape, creating a secure and dynamic future with Yova at the core. Embrace the underdog, empower the future.
